SCHOLL'S PATENT GOPHER AND SQUIRREL EXTERMINATOR.

Diploma Awarded 1886 by the California State Board of Agriculture.

The above cut, with the following description, will be self-explanatory. **A** is a plain cylinder, made of galvanized iron, converging at the bottom to the point **C**, as shown. The top has an orifice for the purpose of draught, as has also the stem through which the air is blown by the bellows **B** (an ordinary hand bellows). The handle is for convenience in carrying. The top of the cylinder is removable. It is charged with ordinary chips, or other combustible matter, and enough green leaves or grasses to make combustion slow. Fire enough can be carried for a half days work. The ell **D** is for use where the gopher holes turn. The whole weight will not exceed thirteen pounds. A small tripod, or tongs, is furnished with above to support the cylinder when in use.

The practical working of this Exterminator has been tested in hundreds of localities, and it is absolutely worth its weight in gold to the farmers of California. **Price \$10.**

Scholl's Patent Ornamental Crown Chimney Caps.

SURE CURE FOR SMOKY CHIMNEYS.

DIPLOMA AWARDED AT MECHANICS' INSTITUTE FAIR, 1885.

I claim that with my CHIMNEY CAP it is not necessary to go to the expense of running a pipe to the top of your next door neighbor's house, whose roof happens to be higher than yours, to get a draught, as my Cap will remedy all defects; that it will create and increase a draught in any chimney that is free from obstructions within, sufficient to carry off all smoke, and keep itself clean, no matter in which position, angle or place it is set. Furthermore, that it will surpass anything heretofore invented for that purpose. I can also recommend it as a perfect Ventilator. For further information and particulars, inquire of

PAGE'S AUTOMATIC FIRE SHUTTER

Adjusted to Passenger or Freight Elevators already in use or in process of construction.

This invention commends itself to the public for its efficiency in closing all draft in Elevator Shafts, by which danger of fire is prevented, and for its adaptation to all elevators.

For its security to life of employees or firemen in buildings, either day or night, the Shutter, being automatic, is opened and locked by the Elevator Cage in its ascent or descent, shutting off each floor effectually, so that accident is impossible. Its adoption is recommended by the Chief Engineer of the San Francisco Fire Department and the Supervising Architect of the City, the Superintendent of the Underwriters' Fire Patrol and its Board of Directors, by the leading Insurance Companies, and principal architects of San Francisco, who have examined and witnessed the Shutter now in operation.

ST. HELENA, Sept. 17, 1885.

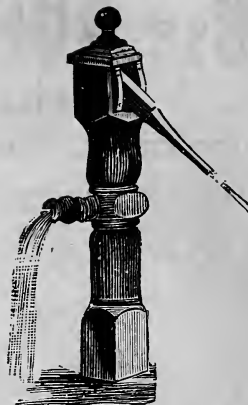

A. M. JEWELL & Co.:

Gents—When one is dissatisfied with his bargains and goods, he is supposed to be allowed to find fault; per contra, when pleased, it is not usual to say anything about it; but as I am an oddity in human life anyhow, I wish to tell you the ten tanks are all up in good shape, have been tried with water, and are perfect. I am very much pleased that you put in the extra staves so we could leave out the THREE IMPERFECT ones that happened in the lot. The cooper says a better lot of wood and iron was never put together.

If you desire any reference in this section, use my name.

Use QUEEN LILY SOAP

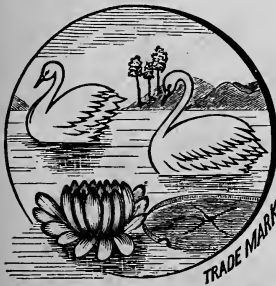

GUARANTEED TO WASH WITHOUT RUBBING.

THE QUEEN LILY SOAP

Has extraordinary merits, and is in good repute with the public, and that is why it is so extensively imitated and counterfeited.

These counterfeits resemble the Queen Lily Soap in appearance and style of packing only. They lack the purity and general excellence of the genuine.

This notice is necessary, as vilely injurious and dangerous imitations, liable to produce chronic inflammation of the skin, are often substituted for the Queen Lily, because they pay a larger profit.

The price of the Queen Lily is as low as consistent with the cost of making such a high grade of pure soap. The price, compared to the quantity and the size of the cakes, makes it the cheapest soap for everybody and for every want. Consumers have simply to insist upon having the Queen Lily, remembering that if any substitute is offered it is for the advantage of the seller.

The Queen Lily is the finest soap known for laundry and general household use. It is made of vegetable oils, and everything used in its manufacture is the purest and best, so it is absolutely pure.

Ladies will find this soap especially adapted for washing laces, infants' clothing, silk hose, cleaning gloves and all articles of fine texture and delicate color, and for the various uses about the house that daily arise requiring the use of soap that is above the

ordinary in quality. For the bath, toilet or nursery it is preferred to most of the soap sold for toilet use, being purer and much more pleasant and effective, and possessing all the desirable qualities of the finest unadulterated White Castile Soap. Respectfully,

FISCHBECK & GLOOTZ,

Manufacturers of all kinds of Laundry and Toilet Soaps.

The Three-Year Curriculum is adopted by this College; attendance upon three regular courses—at least one in this institution—being obligatory.

A Matriculating Examination, or other evidence of the possession of a fair education, will be required on entering.

The Regular Course commences on the first Monday in June of each year, and continues until November. It is thus a Summer Course, contrary to general usage.

The Intermediate Course commences early in January of each year, and continues nearly four months. It is a great assistance as a preparatory step to the Regular Course, and as offering the fullest opportunities for the prosecution of dissection. Although attendance upon this course is not obligatory, it is earnestly recommended that all attend it who can possibly do so.

PREFACE.

In consequence of the great wear and tear of our DIRECTORY for several years past on account of the increase in population, and also because people have become more accustomed to refer to it than heretofore, we, in accordance with our usual policy of always giving our patrons a little more instead of less than we promise or they expect, present this our TWENTY-EIGHTH annual volume in a much more expensive and durable cover than we have done before, hoping it will please both our subscribers and advertisers without whose liberal patronage it would be impossible for us to publish such a book as LANGLEY'S SAN FRANCISCO DIRECTORY FOR 1887.

In the past few years a great many Directories have been stolen. If any Directories are offered for sale below the subscription price it is good evidence that they have most probably been "borrowed."

DIRECTIONS FOR KEY-HOLDERS.—Upon the discovery of a fire near your signal-box, turn the crank steadily to the right, forty times, then wait a few moments, and if you hear no alarm on the large bells, turn as before. If you still hear no alarm, go to the next box and give the alarm from that. Never open the box or touch the crank except in case of fire. Never signal for a fire seen at a distance. Do not give an alarm for a burning chimney. Be sure your box is locked before leaving it. Upon a second

alarm being struck for the same fire it will be considered a general alarm. Second alarms will be turned in only by order of the Chief Engineer or his Assistants.

Keys of the signal boxes are deposited in the vicinity of each box, at such places as are indicated upon cards placed thereon.

The signal boxes in use consist of thirty-one crank boxes and one hundred and fifty-six automatic boxes. An alarm from an automatic box is given by pulling down the hook once and letting go, unerring mechanism doing the rest.

Complaints concerning the working of the Fire Alarm Telegraph, irregular striking of the bells and gongs, broken wires, etc., should in all cases be made at the Fire Alarm Office, Brenham Place.

In case of tumult or riot, whereby the services of the Police force are required, an alarm will be given, consisting of ten strokes upon the bells and gongs, repeated five times, which will be a signal for the Police to assemble at the old City Hall. This alarm will be given only by order of the Mayor or Chief of Police.

The telegraph apparatus consists of about one hundred and forty-four miles of wire, divided into twenty-one circuits, of which thirteen are signal circuits, or circuits running to the signal boxes. Alarm gongs are located in the different Engine, Hook and Ladder, and Hose houses, each connected with the Central Office by the fire alarm circuits and eight alarm bells for striking the alarm box, located as follows: One on the Hall of the Exempt Fire Co., one on the Engine House on Sixth street, one on the Engine House on Stockton street, one on the Engine House on Second street, one on the Engine House on California street, one on the Engine House on Sixteenth street, one on the Engine House on Bryant street, and one on the Engine House on Pacific street. The bells and gongs are each struck at the same time by electrical machinery.

Colleges and Private Schools.

Notwithstanding the excellence of the free public schools of the city and State, their exemption from direct cost to the pupil or parent, and the great interest taken in them by the public as the nurse and strength of our free institutions, colleges and private schools of great wealth, popularity and importance rise and prosper. That such institutions exist, shows the great interest taken in educational matters. The public and private systems are rivals, each stimulating the other, and setting examples of enterprise, management, salaries, edifices, progress and standard of scholarships. There are in San Francisco over one hundred private schools, in which term are included the select school of a few pupils, the seminaries, commercial schools, academies, convent schools, and colleges, with their thousand students. The Census Marshal reported the number of youth attending private and church schools in this city in June, 1886 (not including Chinese) at 9,164. Many of the private schools having edifices of great capacity, cost and grand architectural appearance.

IRVING INSTITUTE.—A collegiate boarding and day school, located at 1036 Valencia, where young ladies are prepared for the State University, or graduated after its full academic course. The buildings afford accommodations for sixty boarding pupils. The attendance of the past year exceeded one hundred. Rev. Edward B. Church, M. A., Principal.

SACRED HEART COLLEGE.—The Sacred Heart College, located on the corner of Eddy and Larkin streets, is a wooden structure of three high stories and basement, and covering a large portion of the block. This is conducted by the "Christian Brothers," under the direction of Brother Cianan. The number of students is 700. The object of this institution is to give a thoroughly Christian and secular education, embracing the classical, scientific and commercial courses.

SACRED HEART PRESENTATION CONVENT.—The Sacred Heart Presentation Convent is a fine brick building of ample proportions, located at the corner of Taylor and Ellis streets. This is a chartered college by act of the Legislature and empowered to confer graduating certificates. The school is free of

COLLEGES AND PRIVATE SCHOOLS.

charge to all denominations. It was opened on the 24th of May, 1869, and the number of pupils increasing, made it necessary to enlarge the building, and in 1870 the portion fronting on Ellis street was added. Later on a wing within the enclosure was built, to afford more ample facilities for the improvement of pupils in music, needlework, painting, drawing, etc. The institution contains 600 pupils, and is under the charge of Mother Mary Ignatius McDermot.

ST. IGNATIUS COLLEGE.—The St. Ignatius College located on the west side of Van Ness avenue, and extending from Hayes to Grove streets, ranks among the oldest and most prominent of the colleges of San Francisco, opening for the reception of students on October 15, 1855. It was incorporated under the law of the State April 30, 1859, and empowered to confer degrees and academical honors. The number of students usually in attendance is upwards of 600, with a staff of 27 professors and teachers. The college edifice consists of two main buildings, connected by spacious corridors. On the corner of Grove and Van Ness avenue, the first two stories are used for class and lecture-rooms, and the two upper floors as an exhibition hall. The college will accommodate twelve hundred students. The church and college combined front two hundred and ninety feet on Hayes street, and runs through to Grove street, a depth of two hundred and seventy-five feet. It is one of the largest and most magnificent edifices the city contains.

ST. MARY'S COLLEGE.—The St. Mary's College located on the east side of Mission street, or County Road, about four miles from the City Hall, takes rank among the first of our educational institutions. Its edifices are, in an architectural point of view, ornaments to the city, and its location is just far enough from the city to secure the health and quiet of the country, at the same time retaining the benefit of a metropolitan proximity. It is one of the oldest colleges on the coast, and has been under the management of the Christian Brothers since 1863. During the last year there were about 250 students in attendance.

TRINITY SCHOOL.—A boarding school located at 1634 Mission street, whose special scope is the preparation of young men and boys for business, university and college. It deservedly ranks with the best of our private schools and receives a generous support from the community. It is under the control and charge of the Rev. E. B. Spalding, Principal.

WESTMINSTER SCHOOL.—Formerly University College, Rev. James Matthews, DD., principal; Thos. H. McCune and W. J. H. Wallace, associate principals; is located on the south side of Haight street, between Laguna and Octavia. It was founded in 1859. Although having a nominal connection with the Presbyterian Church, the institution is not under ecclesiastical control, and is unsectarian in its character. The course of study at present prescribed, extends but little further than is needful to fit pupils for entering with advantage a college or university course. The course of study will be extended as rapidly as the students can be prepared for it, and the trustees can provide the means of maintaining a competent Faculty.

COOPER MEDICAL COLLEGE.—Located corner of Sacramento and Webster streets. This college is the successor of the Medical College of the Pacific. Its handsome building was erected in 1892 by Prof. L. C. Lane, and named in honor of the late Prof. E. S. Cooper. Its Faculty consists of L. C. Lane, M. D., Professor of Surgery, and President; C. N. Ellinwood, M. D., Professor of Physiology; A. Barkan, M. D., Professor of Ophthalmology and Otolary; Jos. H. Wythe, M. D., Professor of Microscopy and Histology; Henry Gibbons, Jr., M. D., Professor of Obstetrics, etc., and Dean; William A. Douglass, M. SUGGESTIONS TO THE PUBLIC.

Facilities are given to the post-office officials in the discharge of their daily duties, and greater security afforded to the public, by careful attention to the following recommendations:

Make the address on letters legible and complete, giving the name of the post-office, county and State. The name of the street and number of the house should also be given on letters addressed to cities where letter carriers are employed; while the letter will eventually reach its destination without a number, the omission is often a cause of hesitation and delay. In the case of letters for places in foreign countries, the name of the country as well as the post-office should be given in full. Letters addressed, for instance, merely to "London," without adding "England," are frequently sent to London, Canada, and vice versa, thereby causing delay, and often serious loss.

FREE POSTAL DELIVERY.

The Free Postal Delivery System is similar to the one so successfully maintained in several of the large Eastern cities. There are ninety-three districts, each of which is in charge of a carrier, who delivers promptly all mail matter received at the Post Office, upon which is written the correct address, street and number of the party for whom it is intended.

All persons who desire their letters, etc., retained until called for, must leave their address at the Post-Office.

OF THE CONSOLIDATED

CITY OF SAN FRANCISCO,

IN ACCORDANCE WITH THE OFFICIAL MAPS, 1868, 1870, AND 1872,

AND SUBSEQUENT ORDINANCES.

EXPLANATORY.—The Ordinance for re-numbering the buildings of this city provides that "Market Street shall be the starting point for the numbers of all buildings fronting on the streets running therefrom in a northerly direction, and also for those running therefrom in a southeasterly direction. The streets laid down in the official map of the city as forming the water front thereof shall be the starting point for numbers on all streets running westerly and southwesterly therefrom, except upon such streets running westerly commencing from Market Street, and upon all such streets, Market Street shall be the starting point for numbers. On all streets the numbers on the right hand side, starting from the point of beginning, are even numbers, a 0 on the left hand side, odd numbers. One hundred numbers, or as many thereof as may be necessary, shall be allotted to each block bounded by principal streets; numbers 100, 200, and 300 being respectively the numbers for commencing the blocks distant one, two, and three streets from the starting point on the side designated for even numbers, and numbers 101, 201, and 301, in similar manner for the opposite side of the street, throughout its extent; so that the initial figure of the number placed on a building at any street-crossing shall indicate the number of main streets such street-crossing is from the starting point. Not less than twenty feet in frontage of all vacant lots of ground shall be allowed for each number. On all cross or intermediate streets the numbering shall commence where said streets begin, and shall conform to the plan specified in this Ordinance."

By this new decimal system of numbering buildings, the exact location of any number is readily ascertained; for example, if you want to find 624 Montgomery, it is on the east side of the block extending from Clay to Washington, which is the seventh from Market—Commercial and Merchant being private streets. Again, 825 Clay is on the ninth block from the water front, which is the one extending from Dupont to Stockton. It must be borne in mind that one hundred numbers are allowed on each block between principal streets.

The following streets are but partially opened, and each differ materially from the plan originally laid out, viz: Clemantina, Ecker, Jessie, Minna, Natoma, Ritch, Shipley, Stevenson, and Tehama.

The territory lying west of Laurel Hill and Odd Fellows' Cemetery, and generally known as the Outside Lands, has recently been surveyed, and is designated on the new official City and County Map as avenues and streets. Those running north and south are named respectively from First to Eleventh avenues, and those running east and west, from First a avenue to the Ocean, and parallel with Point Lobos Avenue, A to W streets.

Reference is frequently made in the Register of Names to the following, and which are located as follows: Hodley's Addition, situated west of Pierce and between Geary and Washington; Horner's Addition, south and near the Mission Dolores; Western Addition, west of Larkin; San Miguel Ranch, southwest and near the Mission Dolores; Bernal Heights (B. H.), south of Twenty-sixth Street, between San Bruno and San Jose Roads; and University Mound Tract (U. M. T.), west of San Bruno Road, five miles from the City Hall. See, also, Prominent Places, and Street Directory.

(b) Street not opened. (c) Fractional blocks, one hundred numbers allowed for first two blocks. (d) Fronting the bay. (e) Street ends. (—) Street does not cross. B. H., Bernal Heights, U. M. T., University Mound Tract. E. S. F., South San Francisco. A blank is used where the number at the crossing of a street could not be ascertained.

GENUINE AROMATIQUE.

Finest Stomach Cordial.

Prepared by Theo: Lappe, Neudietendorf, Germany.

The AROMATIQUE is a preparation, made of the finest herbs and drugs, for more than half a century favorably known and accepted by the Public and the Medical Profession throughout Germany and other continental countries, as well as in the United States and the British Colonies.

The Gold, Silver and other Medals and the Certificates received from the highest professional authorities guarantee the value of this CORDIAL as a TONIC for general use, and as inestimable in cases of LOSS of APPETITE, DYSPEPSIA, FLATULENCY, DIARRHŒA, etc. A small glassfull taken will soon show its beneficial effects.

It is also highly recommendable for mixing with WINES, LIQUORS and MINERAL WATER, and a small quantity of it added will give the beverage a fine and delicate flavor.

The AROMATIQUE has received a large number of TESTIMONIALS from medical men of the highest order, of which a few read as follows:—

I have carefully analyzed the "AROMATIC BITTERS" Liqueur prepared by TH. LAPPE. It consists of a very delicate and agreeable combination of diffusible aromatic tonics which are admirably adapted to promote appetite and digestion, being quite free from the objectionable coarse biters commonly sold as such. These biters supply a want long felt in this country, namely, as a harmless and pleasant dietetic stimulant for every day use.

I am faithfully yours,

H. C. BARTLETT,
Ph. D. F. C. S.

London.

I have subjected the "AROMATIQUE" to a thorough analytical-chemical pharmacological examination, and have found it to satisfy all scientific requirements, being prepared according to correct and scientific principles. Physicians may recommend it without hesitation, and the public may at all times use it as a most excellent dietary preparation.

Dr. HESS,

Approved Apothecary of the first class, examining chemist and scientific expert for medical, technical and chemical articles of every kind.

Berlin.

I can recommend these exceedingly efficacious stomach bitters as a most invigorating as well as blood-purifying

preparation which has the power of stimulating and strengthening the impaired activity of the digestive organs.

Dr. MED. GROVEN,

Surgeon of the Staff in the Royal Reserve Hospital, Langensalza, Prussia.

The "AROMATIQUE" is composed only of harmless vegetable substances, and I highly recommend it in all disorders of the stomach and liver.

[L. S.]

Neudietendorf.

Dr. JACOBI,

I have known the "AROMATIQUE" for the past forty years, and on account of its ingenious composition it has become a public favorite, and can justly be recommended as an eminently useful as well as nicely flavored preparation.

[L. S.]

Arnsdorf.

Dr. E. H. NIOOLAL,

The "AROMATIQUE" has been used for years by many physicians with great success in weakness of the stomach and digestive organs, and also as a prophylactic against epidemic diseases.

Dr. F. HASSENSTEIN,

District Physician, Ichtershausen, Germany.

For Sale by all Liquor Dealers, respectable Saloons
